1. Demonstration Master Data & Values Matrix

Use these exact values during the demonstration so all metrics, dates, and calculations remain perfectly consistent:

Entity / Item	System Identifier / Value	Key Attribute / Metric	Screen / Path
Primary Tipper	`KA-19-MG-8802`	BharatBenz 3528CM (35.0 Ton Payload, Active)	`/vehicles`
Assigned Driver	`Rajesh Kumar`	Licence: **DL-042018009124** (Safety: 94%)	`/drivers`
Operating Mine Pit	`Kudremukh North Pit`	Mineral: **Iron Ore** (Contract: ₹450/MT)	`/mine-sites`
Active Shift Roster	`Morning Shift (06:00 - 14:00)`	KA-19-MG-8802 ↔ Rajesh Kumar	`/shifts`
Trip Dispatch	`TR-2026-00412`	Pit to Railhead Siding #2 (In Transit)	`/dispatch`
Weighbridge Ticket	`WB-2026-00388`	Gross: **50.40 MT** | Tare: **18.00 MT** | Net: **32.40 MT**	`/weighbridge`
Fuel Bunkering	`FL-2026-00192`	**180.0 L** @ ₹92.50/L = **₹16,650.00** (2.15 km/L)	`/fuel`
Field Road Expense	`EXP-2026-00564`	**₹1,850.00** (Toll & Highway Weighment)	`/expenses`
Breakdown Truck	`KA-19-MG-7001`	Tata Prima (Hydraulic Leak • Severity: Major)	`/breakdowns`
Spare Parts Supplier	`AutoMech Central Workshop`	Contract PO-2026-00045 (12x Tyres ₹3,84,000)	`/purchases`
Automated Revenue	`₹14,580.00`	32.40 MT x ₹450.00/MT (Auto-billed)	`/revenue`
Net Profit (1 Tipper)	`₹13,740.00 (31.4% Margin)`	Revenue ₹43,740 less Fuel/Tolls/Maintenance	`/profitability`

2. 18-Module Rapid Click Sequence & Killer Speaking Hooks

1. Command Center & Executive Dashboard `/`

Click: Open home page → Hover on Fleet KPI Cards (24 Total, 18 Active) → Hover on Daily Tonnage bar chart.
"Your entire 24-vehicle fleet, active haulage, and live pit production visible in 5 seconds."

2. Mine Sites & Extraction Pits `/mine-sites`

Click: Mine Sites menu → Select 'Kudremukh North Pit' → Highlight Mineral Type (Iron Ore) and contract rate.
"Each pit is mapped with its specific tariff, target tonnage, and geofenced crushing circuit."

3. Vehicles & Document Safeguards `/vehicles`

Click: Vehicles menu → Click row 'KA-19-MG-8802' → Inspect Modal (Insurance, Fitness, Mining Pass green badges).
"No vehicle with an expired permit or fitness certificate can ever be dispatched onto the road."

4. Driver Management & Licences `/drivers`

Click: Drivers menu → Point to 'Rajesh Kumar' (DL-042018009124) → Show Safety Score 94% → Show suspended driver excluded.
"Safety starts with the driver. Active heavy-vehicle licences and medical fitness are strictly validated."

5. Shift Allocation Board `/shifts`

Click: Shifts menu → Show Morning Shift roster (KA-19-MG-8802 ↔ Rajesh Kumar) → Click 'New Allocation' modal.
"Prevents double-booking. Guarantees one driver to one vehicle per 8-hour mining shift."

6. Trip Dispatch Console `/dispatch & /trips`

Click: Dispatch menu → Trips tab → Select Trip TR-2026-00412 → Highlight Pit to Railhead route and 'In Transit' status.
"Digital dispatch tokens replace paper slips and track turnaround times across every pit ramp."

7. Weighbridge Gross/Tare Console `/weighbridge`

Click: Weighbridge menu → Open ticket for KA-19-MG-8802 → Gross: 50.40 MT, Tare: 18.00 MT, Net: 32.40 MT → Overload Safe.
"Exact payload netting eliminates overloading fines and immediately triggers the billing engine."

8. Fuel Logging & Efficiency `/fuel`

Click: Fuel menu → Locate KA-19-MG-8802 record (180 L @ ₹92.50 = ₹16,650) → Point to calculated 2.15 km/L.
"Cross-references litres filled against odometer deltas to immediately detect diesel pilferage."

9. Breakdown Incident Board `/breakdowns`

Click: Breakdowns menu → Highlight BD-2026-00084 on KA-19-MG-7001 (Hydraulic Leak, Severity: Major) → Status: Workshop.
"Field breakdowns trigger instant alerts to the workshop and lock the truck from further dispatch."

10. Maintenance Orders & Spare Parts `/maintenance & /inventory`

Click: Maintenance menu → Open Order WO-2026-00109 → Parts Requisition tab (2x Seal Kits issued from Central Stores).
"Every filter and tyre issued from warehouse inventory is debited directly against that vehicle's P&L."

11. Vendor Procurement & POs `/purchases & /suppliers`

Click: Purchases menu → Open PO-2026-00045 (AutoMech Workshop, 12x Tyres ₹3,84,000) → Show 3-Way matching.
"Procurement locked to pre-negotiated OEM vendor contracts, eliminating rogue off-contract purchasing."

12. Operational Expenses (Tolls/Bhatta) `/expenses`

Click: Expenses menu → Locate EXP-2026-00564 (₹1,850 Toll for KA-19-MG-8802) → Click 'Add Expense' modal.
"Drivers upload toll and permit receipts from their phones—no more missing paper vouchers."

13. Executive Approvals Inbox

`/approvals`

Click: Approvals menu → Show pending expense EXP-2026-00564 → Show Approve/Reject buttons → Note MD approval authority.
"Managing Director reviews and approves expenses and POs in seconds with full digital audit stamps."

14. Revenue & Automated Invoicing

`/revenue`

Click: Revenue menu → Show ₹24.85 Lakh monthly billing → Open Invoice SINV-2026-00088 (32.4 MT x ₹450 = ₹14,580).
"Weighbridge tickets turn into verified GST sales invoices automatically, accelerating your cash cycle."

15. Collections & Aging Receivables

`/collections`

Click: Collections menu → Show 30/60/90 day aging summary → Open Payment Voucher PAY-2026-00031 (Tata Steel ₹5 Lakh).
"Matches bank wire receipts against open invoices so you know exactly what each mining client owes."

16. Compliance Watchlist

`/compliance`

Click: Compliance menu → Show 92% Compliance Gauge → Highlight 30-day proactive expiry watchlist.
"Prevents statutory seizure with automated 30-day alerts for fitness, insurance, and road tax."

17. Reports & System Alerts

`/reports & /alerts`

Click: Reports menu → Select Daily Tonnage Report → Switch to Alerts tab (show queue delay and calibration alert).
"Management manages exceptions only—instant notifications on long weighbridge queues or abnormal delays."

18. Fleet Profitability (P&L per Vehicle)

`/profitability`

Click: Profitability menu → Point to KA-19-MG-8802 (Revenue ₹43.7K, Cost ₹30K, Net ₹13.7K, Margin 31.4%) → Toggle By Pit view.
"Revenue minus diesel minus parts minus tolls equals net profit per truck before you sleep tonight."

3. Presenter Panic & Recovery Protocols

If anything unexpected happens during your live presentation, follow these exact field-tested recovery actions without breaking your speaking flow:

Scenario / Issue	What Happens on Screen	Immediate Recovery Action	What You Say to the Client
Port 3001 Closed	Browser displays "Unable to connect"	Open terminal, run `cd frontend && npm run start -- -p 3001`	*"Let me reconnect to our high-security local site gateway..."*
Session Timeout	Redirects to `/login`	Click Login with pre-filled `fleet.manager@uptoware.com`	*"Notice our automatic security session timeout for mine data security."*
Slow Modal Load	Modal spinner rotates > 3 seconds	Press `Esc` or click backdrop, re-click the row	*"The system is pulling live telemetry across the pit network..."*
Accidental Delete/Edit	Prompt asks for confirmation	Click **Cancel** immediately	*"Our dual-confirmation safeguard prevents accidental data loss."*
Client Asks Unimplemented Feature	"Can it do satellite tyre temperature?"	Acknowledge roadmap alignment without claiming it's live	*"Our telemetry API supports external CANbus sensors on our Q1 roadmap."*

Client Persona Adaptation Matrix

Client Attendee	Primary Concerns	Top 3 Modules to Highlight	Key Metrics to Emphasize
Mine Owner / MD	Net Margin, Fuel Pilferage, Regulatory Seizure	1. Dashboard • 13. Approvals • 18. Profitability	Gross Operating Margin %, Cost per Ton, Compliance Score
VP / GM Operations	Cycle Time, Tonnage Targets, Shift Double-booking	2. Sites • 5. Shifts • 6. Dispatch • 7. Weighbridge	Daily Hauled Tonnage, Truck Turnaround Mins, Trips/Shift
Finance Controller	Invoice delays, 3-Way PO match, Toll leakage	11. Purchases • 12. Expenses • 14. Revenue • 15. Collections	Unbilled Weighment Days, Accounts Receivable Aging, Toll proof
